

# Thank you for saving my horse's life!

Editor, the VOICE:

I want to send out a heartfelt Thank You to a few people who came to the rescue of my horse Spanky when she went down on Saturday. I am a member of PSHA (Pattern Speed Horse Association) and when I put the call out for help that my horse was down many people came to help.

I would like to Thank Randy and Jackie Little for the hours of walking Spanky as well as Jesse Cargo and Josh Crawford. Spanky had Colic and this can kill a horse. They dropped everything and came right over in the early morning hours until late that afternoon. Dr. Heather from Carousel Mobil Vet for the round the clock care she gave Spanky. Lisa and Terry Guthmiller for lending me their horse Magic to dally Spanky to and make her walk.

I would like to give a big thank you to Hailey Nelson for allowing me to bring Spanky to her barn with a heated stall during the night. Spanky was knocking on death's door and without these great friends I am sure we would have lost her.

There are also many more people from PSHA who helped with giving us the advice to get her through this. I am truly so very thankful for you helping me in my time of need.

Spanky is now recovering after three days of colic and hopefully will be fine. You all mean the world to me; good friends are hard to find and I value all of you. Thank You!

Sincerely,

Jessica Mary
